Introduction

The teacher's resource provides a range of teaching and reference materials which have been developed to aid the teaching of the Cambridge International Examination (CIE) Computer Science syllabus (0471).

The materials support the Cambridge IGCSE Computer Science syllabus, by Wilson and Williams, which has been endorsed by Cambridge International Examinations.

Scheme of work

The scheme of work has been divided into three 10-week units through the use of the IGCSE Computer Science textbook. Its aim is to complete the course by the end of the second term in the second year of study. The syllabus is divided into three units for delivery and assessment. It is assumed that students will have 10 hours per week available for the course. The syllabus is divided into three units for delivery and assessment.
